

Introducing the SafeWaze FaceMask

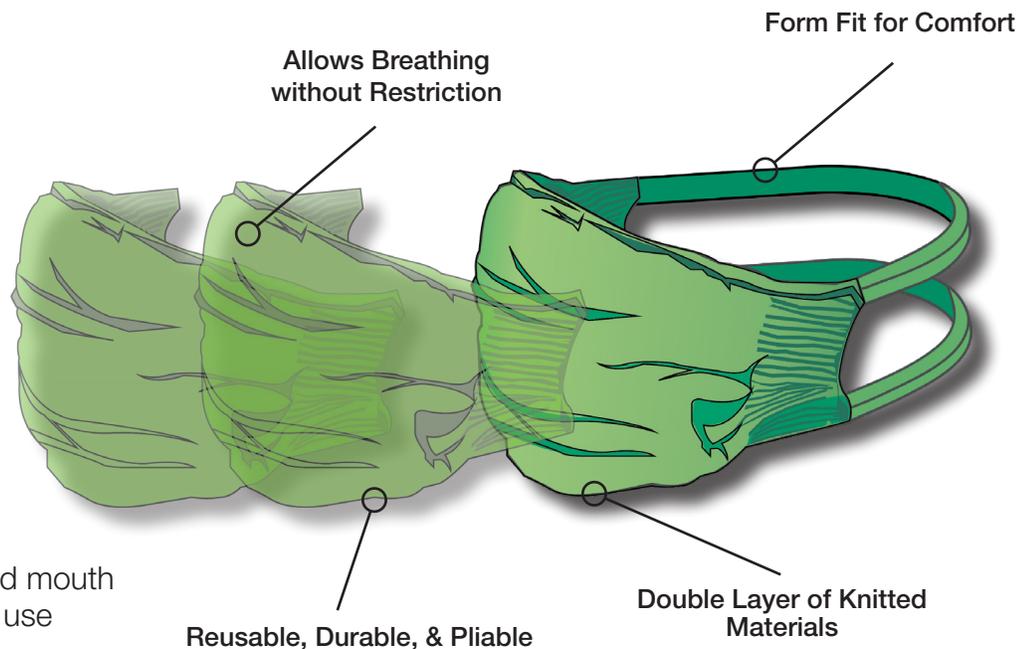

The COVID-19 virus has presented a rapid need for PPE, including **protective reusable face masks** for enhanced worksite safety. Introducing the **SafeWaze FaceMask**, featuring a breathable multi-layered knitted nylon fabric to reduce particle transmission, unisex sizing, and high comfortability. **Products are 100% North Carolina made**, utilizing our industrial sewing capability and local textile supplier relationships. We are proud to offer the SafeWaze FaceMask to our distributor partners.

FEATURES:

- Reusable
- Knitted nylon, and spandex
- Form fit for better comfort
- Double layer of knitted materials
- Reusable, durable, washable
- Eco friendly, soft and pliable
- One size fits all - Unisex

INSTRUCTIONS:

- Clean hands before use
- Hand form mask to cover nose and mouth
- Hand or machine wash after each use
- Avoid touching mask while in use

SANITIZATION:

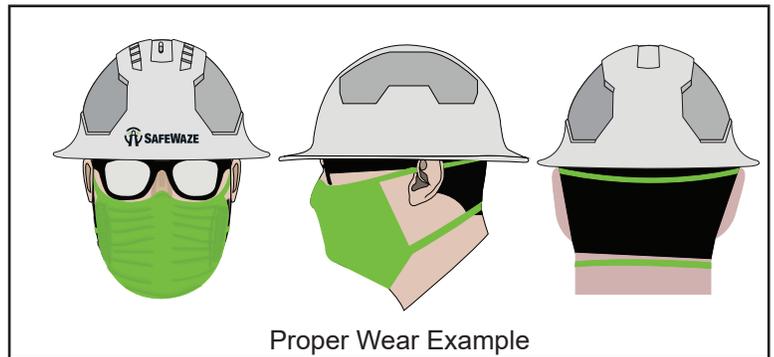

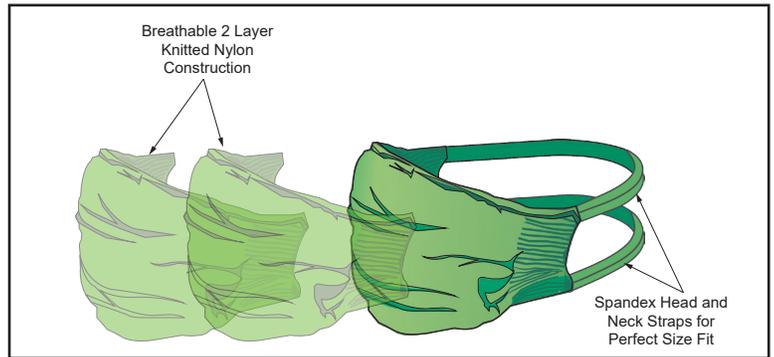

- Use warm water, mild detergent soap, and hang dry
- Avoid “hugging” the product too close prior to laundering to avoid self-contamination
- Do not shake product before washing to avoid spreading any bacteria through the air
