HURRICANE TAPE™

CONSTRUCTION :: MARINE :: AUTOMOTIVE :: HOME

Hurricane Tape™ is a heavy-duty general purpose utility tape that can be used as an alternative to duct tape. It is much more durable, weather resistant, and with its high tensile strength it does not stretch and tear like duct tape—making it a better choice for outdoor and heavy-duty applications. Its backing is water-resistant woven polyethylene plastic. With a UV inhibitor added, Hurricane Tape has been proven to stay intact for up to 5 years of continuous weather exposure. The adhesive will also not leave a residue if removed within 7-14 days but will get stickier over time.
