## Rigid-Lock QuickBerm ${ }^{\circledR}$ Plus $H E W$

Heavy-duty construction provides long-term spill containment
for vehicles, heavy equipment, tankers, and more

- Single-piece construction - patented Rigid-Lock wall-support system integral to berm provides unobstructed work space.
- Quick and easy setup - no assembly required.
- Durable EnGuard ${ }^{\text {M }}$ VI modified PVC coated fabric withstands long-term UV exposure - great for outdoor use.

The QuickBerm Plus ${ }^{\circledR}$ offers superior protection and chemical resistance against the harshest of liquids, including petroleum, oils, greases, and most acids. Exhibits three times greater resistance against punctures and abrasion, resulting in longer wear over other popular QuickBerm ${ }^{\circledR}$ products - excellent for heavy vehicle traffic.

Unlike floating-wall type berms that are susceptible to wall collapse and containment failure, the patented Rigid-Lock stainless steel brace supports walls at full $90^{\circ}$ locked position for secure, leakproof containment. A simple push on the walls unlocks the support and lays the wall down for drive-through capability from any angle.

The built-in Rigid-Lock wall supports maximize usable space inside the berm and greatly reduce any tripping hazard on the berm perimeter. Reinforced CriticalCorner ${ }^{\text {TM }}$ design with wraparound diagonal radio frequency (RF) welds offer exceptionally strong structural integrity to prevent seam leaks, provide fluid-tight reliability, and extend berm life expectancy. Finished hem edge on top of sidewall prevents fraying and adds strength. Each support includes an integrated hole for anchoring the berm under high wind conditions. Anchor stakes not included.

See page 28 for tarps, ground mats, track mats, or track runners to provide extra protection against rocky surfaces or heavy in-out traffic use.

Helps comply with EPA for containment and spill prevention (SPCC).

Note (1): For exterior dimension, add 8 -in (203-mm) to width and length to account for support and hub. Note (2): When selecting a berm size, allow $12-\mathrm{in}(305-\mathrm{mm})$ at entry or exit for lowering and raising the wall.

Rigid-Lock design provides large-scale spill protection with optimum floor space for unobstructed drive-through capability.

## Unmatched structural integrity

Patented Rigid-Lock Mechanism

Sets up to a $90^{\circ}$ locked position. Integrated holes in hub permit easy anchoring.

Critical-Corner ${ }^{\text {TM }}$
Construction

Reinforced, wraparound design prevents seam leaks for fluid-tight reliability.

Supports fold down and lie flat to allow large vehicles to drive in from any angle. Highly chemical-resistant fabric offers exceptional abrasion and puncture resistance.

Portable, drive-in containment berms can be used anywhere, indoors or out, for storage of drums, tanks, or leaky equipment.

No assembly needed -
saves time, ready in minutes!

## Rigid-Lock QuickBerm ${ }^{\circledR}$

HEN

## Safe, drive-in spill containment for drums, IBC totes, and tanks

- Single-piece construction - patented Rigid-Lock wall-support system integral to berm provides unobstructed work space.
- Quick and easy setup - no assembly required.
- Durable EnGuard™ V modified PVC coated fabric withstands long-term UV exposure-great for outdoor use.

Ergonomic design provides 100\% inside berm accessibility with an unobstructed side-to-side floor space for vehicle tires, foot traffic, and cleaning. The patented Rigid-Lock wall-support design protects personnel against trips and falls when walking along the outside perimeter. Built-in stainless steel wall supports lock the sidewalls in a $12-\mathrm{in}(305-\mathrm{mm})$ high, $90^{\circ}$ vertical position. The Rigid-Lock QuickBerm ${ }^{\circledR}$ offers immediate, secure deployment and no-worry, spill-readiness.

Like the QuickBerm ${ }^{\circledR}$ Plus the standard QuickBerm ${ }^{\circledR}$ withstands a broad range of chemicals including petroleum, oils, grease, and most acids-durable enough for extended wear. Exceptionally strong structural integrity includes a reinforced CriticalCorner ${ }^{\text {TM }}$ design featuring wraparound diagonal radio frequency welds to prevent billowing, unwrapping, or sagging of the corners during full containment for fluid-tight reliability. Walls include a 1 -in ( $25-\mathrm{mm}$ ) fray-resistant finished hem along the top rim for added wall strength and integrity. Each support includes an integrated hole for anchoring the berm under high wind conditions. Anchoring stakes not included. Sidewalls lower quickly for easy drive-in and out. Portable design folds down quickly for storage and transport.

Helps comply with EPA for containment and spill prevention (SPCC).
Note: the difference between the QuickBerm ${ }^{\circledR}$ Plus (page 19) and the standard Rigid-Lock QuickBerm ${ }^{\circledR}$ is the durability of the PVC-coated fabric. The Plus version with EnGuard ${ }^{\top M} \mathrm{VI}$ material is thicker and more durable for more frequent drive-in or -out applications. The standard QuickBerm ${ }^{\circledR}$ constructed of EnGuard ${ }^{\top M} \mathrm{~V}$ material is better suited for infrequent drive-in or -out scenarios, pedestrian traffic, and for placing heavy materials within the working space.

See page 28 for tarps, ground mats, track mats, or track runners to provide extra protection against rocky surfaces or heavy in-out traffic use.

## Unmatched structural integrity

## Rigid-Lock QuickBerm ${ }^{\circledR}$ Lite NIE

## Portable, versatile containment berm deploys quickly for emergency spill response

Leakproof, tough EnGuard ${ }^{\text {TM }}$ I PVC coated fabric provides broad UV and chemical resistance that withstands repeated usage. The patented Rigid-Lock wall supports maximize usable space inside the berm and greatly reduce any tripping hazard around the perimeter. Stainless steel braces support wall at $90^{\circ}$ locked position for secure, leakproof containment.

Lightweight berm folds down easily to a small size for storage in trucks, emergency vehicles, and spill kits. Add optional grates to help reduce contact with contaminated liquids by personnel or equipment.

Helps comply with EPA for containment and spill prevention (SPCC).
Applications:

- Saddle tank ruptures
- Personnel and small equipment decontamination
- Fuel tank overspill protection
- Hydraulic leaks and breaks
- Transformer storage
- Leaky containers, machinery, and piping
- Overfills from aircraft or locomotive refueling
- Truck, auto, and forklift battery storage
- Spill kit addition

Quickly capture spills from damaged saddle tanks, minimizing ground contamination and associated clean-up costs.

Use as an emergency decontamination station with optional grating.

## QuickBerm${ }^{\oplus}$ Lite . . .

An economical way to equip truck fleets with emergency spill control from punctured fuel tanks-folds compactly and sets up quickly. Visit our website and search QuickBerm ${ }^{\circledR}$ Lite.

Quick-deployment Decon QuickBerm ${ }^{\circledR}$ used by first responders for emergency decontamination of personnel.

Individual, leakproof zones prevent contaminated fluid from traveling from one zone to another.

28428

## Decon QuickBerm ${ }^{\circledR}$ NEW

## Portable multi-zone decon stations help prevent environmental contamination

- Single-piece construction-patented inside wall-support system forms watertight wash down zones.
- Quick and easy setup-no assembly required.

For emergency deployment, these multi-stage berms with patented interior walls create wash down zones that safely capture and contain contaminated solutions. Select from two-, three-, or four-zone models. Watertight, lightweight PVC coated fabric provides wide range of chemical resistance. The 8 -inch ( $203-\mathrm{mm}$ ) walls allow for easy entry and exit of the compartments. One $3 / 4$-in GHT drain fitting per zone. Order optional grates to keep personnel above liquid.

Note: For exterior dimension on 4 -in ( $102-\mathrm{mm}$ ) models, add 12 -in ( $305-\mathrm{mm}$ ) to width and length. For exterior dimension on 2-in ( $51-\mathrm{mm}$ ) models, add 6 -in $(152-\mathrm{mm})$ to width and length.

Portable, flexible spill berm provides leak and spill protection anywhere in your facility.

Roll-over sidewalls offer easy drum placement-foam walls quickly spring back for secure containment.

Folds up for easy storage.

Available in
2-in ( $51-\mathrm{mm}$ ) and 4-in $(102 \mathrm{~mm})$ heights.

Position drip pad in tight spaces between machinery to capture oily leaks.

## Drip Pads

## Capture small oil leaks and drips before they contaminate the ground or create unsafe work surfaces

- Lightweight, flexible, and portable - great for containing small oil drips from leaky vehicles, industrial machinery equipment, hydraulic lines, pipes, and drums.
- Made from UV- and chemical-resistant modified PVC.
- Patented design feature includes a coated mesh outer layer to trap coarse debris.

These drip pads feature replaceable, oil-only sorbent within a welded leakproof barrier. Rated for drive over applications, pads include brass grommets in opposing corners for anchoring. Anchoring stakes not included. Pads come in two sizes; extended model is weighted to keep it down in high winds. Outer shell is reusable with optional refill sorbent packs.

Helps comply with EPA for spill prevention (SPCC).

## Washdown QuickBerm ${ }^{\circledR}$ NEIN

## Portable drive-through station captures contaminated water from vehicle and construction equipment wash down

Durable vinyl coated material reinforced with radio frequency-welded, high visibility yellow runway strips that withstand drive-thru traffic, including backhoes and skid steers. Removable 4-in (102-mm) diameter foam inserts support sidewalls while 2 -in $\mathrm{H} \times 8$-in W ( $51-\times 203-\mathrm{mm}$ ) planks (not included) slide into pockets to keep end walls elevated preventing wastewater from escaping during drive-over. Simply remove foam inserts to fold material for quick and compact storage. Two 1-in NPT fittings on each side of the berm for drainage. Brass grommets around perimeter provide the ability to securely anchor berm during use. Anchor stakes not included.

Helps comply with EPA for stormwater regulations.

## Ceiling Leak Diverters NEW

## Redirect roof or pipe leaks to prevent water damage

- Available with high strength magnets for steel rafter attachment, or grommets for bungee or zip tie attachment.
- Constructed with cinched corners for quick and easy installation.

Durable, puncture resistant, and watertight PVC-coated yellow fabric is designed to channel overhead pipe and ceiling leaks to containers or floor drains. Diverters help provide a fast and economical way to protect your personnel, equipment, and inventory. Simply connect to a standard garden hose to drain water safely away. Flow rate of $3.3 \mathrm{gal} / \mathrm{min}(12.5 \mathrm{~L} / \mathrm{min})$.

## Mini-Berm Flex Tray

## Compact, portable spill control for harsh and hazardous chemicals

Safe and reliable for tabletop parts cleaning and fluid transfer operations involving petroleum products and acids, the Mini-Berm Flex Tray is made from a robust modified PVC-coated fabric. It features rigid corner supports and sturdy foam walls. Each berm comes with a 1-in NPT drain fitting. Simply attach hose and transfer fluids for disposal. Easy to fold and store; utility strap included.

Helps comply with EPA for containment and spill prevention (SPCC).

Flexible Containment

Space-saving design for emergency spill control from ruptured saddle tanks.

28319

## Pop-Up Pools $H E N$

## Economical emergency spill containment - simply unfold,

 shake from foam ring top, and place under leaking equipment- Folds tightly and stows easily.
- Embedded foam ring top raises containment wall as fluid level increases.

Use these space-saving and lightweight pools to contain spills from punctured saddle tanks, or leaking drums, hydraulic lines, pipes, and machinery. The durable vinyl fabric is $20 \%$ heavier than other models on the market, providing increased abrasion resistance and more reliable seam adhesions. Yellow color provides visibility and easy identification.

Helps comply with EPA for containment and spill prevention (SPCC).

Use for temporary spill containment for leaky drums

Folds to a compact size for storage in tight spaces.

## Free survey helps you address environmental concerns

Not sure which spill control solution is right for you? Justrite's free STUD-ETM survey can ensure proper protection and compliance-visit justritemfg.com to learn more and sign-up.

Flexible Containment

## Water-Filled Boom Diverters तIEW

## Temporarily divert and control fluid for easy cleanup or recovery

Use the water filled booms in storm water management, portable washdown/ pressure washing diversion, spill diversion, and equipment and personnel decontamination. Flexible PVC film construction conforms to uneven surfaces such as asphalt or concrete to form a diversionary barrier away from storm drains or as a holding area for wet vacuum operations. Features easy-open push plug for filling with standard water hose.
Helps comply with EPA for stormwater regulations.

Redirect liquids away from work areas and storm drains.

## Water-Filled Drain Covers NEW

## Ensure regulatory compliance and prevent run-off pollutants from entering stormwater drains

Deploy cover as a preventative measure to seal drains before washdowns, maintenance, or other cleanup tasks that may allow contaminants into nearby water systems. Features easy-open push plug for filling with standard water hose. Order a cover size that overlaps drain opening at least $6-\mathrm{in}(152-\mathrm{mm})$ on each edge. To prevent edges from losing contact with ground surface, do not fill over 5-in (127-mm) in height. Long-lasting durable modified vinyl construction resists damage caused by UV rays.

Helps comply with EPA for stormwater regulations.

Flexible Containment

Improve wear resistance and extend the life of your berm by adding track runners.

## Ground Protection Accessories

## Improve berm longevity without sacrificing functionality

Ground Mats - Create a smooth, uniform deployment area with this heavy-duty woven fabric. Place under berm for improved wear resistance against rocks and construction debris.

Track Mats - Position inside the berm for extra protection along tire paths. Thick durable, black woven fabric protects the floor and walls from tire abrasion caused by skidding, turning, and braking.

Track Runners - Place this high visibility, yellow vinyl coated fabric inside the berm for moderate protection against tire abrasion.

## SPIL EONWROL \& =NTHRONWIU

## EcoPolyBlend ${ }^{\text {TM }}$ Accumulation Centers and Ramp Combine units to create your own customized spill-control system

Low-profile centers only measure 5.5 -inches ( $140-\mathrm{mm}$ ) high for easy handling of drums. Made with $100 \%$ recycled polyethylene, these accumulation centers are nearly impervious to chemicals, including acids and corrosives. Seamless construction eliminates leaks, making them ideal for drum filling and dispensing operations. Self-locating grates won't ride-up, and are removable for easy cleaning. Combine 2-, 4-, 6-, and 8-drum modular units to create your own customized system. Use the optional joining clips to firmly lock units together. Sumps remain separate and clips can be removed for easy repositioning. Also available in non-recycled yellow color.

EPA compliant, supports SPCC, and meets NFPA 12009 edition and IFC fire codes.
Use optional Sump-to-Sump ${ }^{\text {TM }}$ drain kit (includes joining clips and transfer tube) for applications requiring a continuous sump. Kit allows you to join centers together, on-site, for full compliance with regulations when sump capacities reach 71-gallons (270-liters). Kit includes one pair stainless steel joining clips, one pair rubber grommets, one polytetrafluoroethylene (PTFE) transfer tube.
(Patent No US 6,622,879,B1)

## Companion Ramp

Modular design lets you join centers together to fit your space and application.

Load and unload heavy drum with ease. Anti-skid ribs provide maximum safety. Place the ramp anywhere on accumulation centers size 2-drum or larger.

Build your own customized system!

Use pallet as a workstation for waste collection.

## EcoPolyBlend ${ }^{\text {TM }}$ Spill Control Pallets

## Keep workers safe from accidental slips indoors and avoid costly hazmat cleanup costs

- Protect against ground contamination.
- Comply with EPA and avoid potential fines.

Made of molded 100\% recycled polyethylene, these pallets resist chemical attack from hazardous acids, caustics and solvents. The oversized sump holds the contents of up to a 55-gallon (200-liter) drum in the event of leak or rupturemeeting or exceeding the most stringent spill containment regulations. Seamless construction eliminates leaks. Self-locating grates lift off for quick cleanup. Black color hides grime and dirt to keep your workplace looking clean. Choose from square or in-line configurations. Also available in non-recycled yellow color.
EPA compliant, supports SPCC, and meets NFPA 12009 edition and IFC fire codes.

Black models -100\% recycled content. Independently green validated by UL Environment.

Yellow models have $45 \%$ recycled content

## SPILL GONWROL \& ENUIRONWIVIT

## EcoPolyBlend ${ }^{\text {TM }}$ DrumSheds ${ }^{\text {TM }}$

## Safe, secure, and compliant outdoor storage for drums

Weather resistant DrumSheds ${ }^{\text {TM }}$ are made of eco-friendly, $50 \%$ recycled polyethylene. Convenient roll top doors allow access from front or rear. A wide, 52 -inch (1321-mm) door opening accepts palletized loads. Fully compliant, leakproof pallet sump has removable, durable deck grating for easy cleanup of spills. A spacious interior offers ample headroom for adding funnels or pumps. Safety features include grounding capability, integral anchor bolt locations for wind resistance, and molded lugs to accept padlocks for security. Forklift pockets at the front and back make it easy to relocate empty sheds. Ships fully assembled. Pallets (without shed) also available.

Low Line Pallets (without shed) also available. Two-drum and 4-drum sizes feature ergonomic, low 9-in (229-mm) working height.

EPA compliant, supports SPCC, and meets NFPA 12009 edition and IFC fire codes.

## Steel Spill Containment Pallets

Use rugged, high sump capacity pallets for industrial applications
Constructed of 11-gauge hot rolled steel and strengthened with formed edging, these rugged pallets feature generous sump capacities and are $100 \%$ leakproof. Galvanized steel bar grating removes for easy cleaning and keeps drums out of overflow. Large forklift pockets $8.375-\mathrm{in} \mathrm{W} \times 3.875-\mathrm{in} \mathrm{H}(213-\mathrm{mm} \mathrm{W} \times 98-\mathrm{mm} \mathrm{H})$ make relocation easy. Available in corrosion resistant blue powder-coat or galvanized steel finishes.

## EcoPolyBlend ${ }^{\text {TM }}$ Spill Containment Caddy

Get convenient handling, dispensing and built-in spill containment-all in one product!

- Rubber, 10-in (254-mm) wheels roll over bumpy terrainuse indoors or out.
- Single-piece, double-walled seamless design eliminates leaks.

This portable unit with wheels allows one person to easily transport a full $55-$ gallon (200-liter) drum. Ergonomic design with tilt/stop feature minimizes back strain. Two tension straps hold a drum securely in place. A 66-gallon (250-liter) spill sump contains chemical spills, eliminating hazards and hassles. Exclusive open-view sump design makes cleanup simple and quick. Durable $90 \%$ recycled polyethylene construction provides maximum corrosion resistance and leakproof protection. Also, available in non-recycled yellow color.
EPA compliant, supports SPCC, and meets NFPA 12009 edition and IFC fire codes.

Two-wheeled design makes for easy transport.

## EcoPolyBlend ${ }^{\text {TM }}$ Spill Control Funnels

An eco-friendly, cost-effective way to collect liquids and keep drum tops clean
Use these funnels with any closed-head 30- and 55-gallon (110-and 200-liter) drums. Low-profile, wide diameter opening makes it for quick, easy pouring. Scalloped, sloped design minimizes splashes and prevents containers from resting in their own liquids. Large, flat well at the throat of funnel allows for passive draining of paint tins, filters, buckets and other containers.
Funnel for flammable liquids includes a drum fill vent with brass flame arrester, threaded bung cap with tight seal, and pressure relief valve for high temperatures. Molded-in hook stores optional funnel cover.

| Description | Sump Capacity Gallons/Liters | OD x H | Compliance | Model No | Ship Wt $\mathrm{lb} / \mathrm{kg}$ |

Wide diameter opening allows for quick and easy pouring.

100\% recycled content. Independently green validated by UL Environment.

EcoPolyBlend ${ }^{T M}$ drum management system combines efficient drum storage and positive spill control.

## EcoPolyBlend ${ }^{\text {TM }}$ Drum Management System <br> Organize drums for maximum efficiency, productivity and cost-savings

Space-saving, stackable design stores up to four 30- and/or 55-gallon (110- and/or 200-liter) drums of Class 1B or 1C flammables and combustibles or nonhazardous liquids. 100\% recycled molded polyethylene construction provides maximum chemical resistance-preventing corrosion, deterioration and leaks. Molded-in drum lock-channels hold drums in place. The system consists of three parts: a base module, stack module and dispensing shelf.

The Base Module holds two drums with a 3060-lb (1388-kg) total load capacity. Easily relocate the base module with a forklift when empty.
The 66-gallon (250-liter) open-view containment sump makes it easy to spot any spills for a quick cleanup.

The Stack Module holds two additional drums to double the system capacity for a load of $1500-\mathrm{lb}(680-\mathrm{kg})$. When storing both $30-$ and $55-$ gallon (110- and 200-liter) drums, the smaller drums should be placed on the top of the stack module.

The Dispensing Shelf has a load capacity of $60-\mathrm{lb}(27-\mathrm{kg})$, and mounts securely to the stack module for convenient dispensing from the upper level.

EPA compliant, supports SPCC, and meets NFPA 12009 edition and IFC fire codes.

## SPILL. FONWROL \& ETVMROMIN

## Overpack/Salvage Drums

## Approved for the transportation of hazardous materials

- Polyethylene drums are DOT/UN certified to the highest "X" rating for Packing Groups I, II, and III solids up to 750-Ib (340-kg).
These dual-purpose drums are DOT/UN approved for use as a salvage drum for dry hazardous materials, or as secondary containment for solids or liquids with a $95-$ gallon (360-liter) sump capacity. Durable $100 \%$ polyethylene construction is chemical and weather resistant to withstand the rigors of land, air and sea transportation. Twist-on threaded lid makes closure safe and easy. Simply use a forklift to relocate the drums. Units nest when empty for compact storage. Select from yellow or black polyethylene.

Durable construction withstands the rigors of transportation.

## Color Changing Filter

## Non-Color Changing Filter

## Aerosolv ${ }^{\circledR}$ Aerosol Can Disposal System

## Safely recycle aerosol cans while reducing disposal costs and minimizing waste

- Save thousands of dollars on hazardous waste disposal costs.
- Turn aerosol cans into recyclable steel-save on landfill space for a cleaner environment.

The Aerosolv ${ }^{\circledR}$ system safely converts spent aerosol cans from solid hazardous waste to a non-hazardous material. It accepts industry standard sized cans with a maximum height of $81 / 2-$ in $(215-\mathrm{mm})$ and threads directly into a standard 2 -in ( $51-\mathrm{mm}$ ) bung on a 30 - (110-liter) or 55 -gallon (200-liter) drum. Body is made of low maintenance aluminum and all moving parts are 308 stainless steel. A non-sparking pin punctures the can, and the residual liquids flow into the collection drum. One 55-gallon (200-liter) drum holds approximately 4,200 spent aerosol cans. Punctured, discharged, cans do not meet the definition of hazardous waste per EPA 40 CFR 261.23(a)(6), and thus can be treated as recyclable scrap metal.

Attach the two-part combination filter to the $3 / 4-$ in (19-mm) bung to filter VOCs from any residual propellants. The bottom coalescing cartridge transforms residual liquids into droplets that collect in the reservoir of the cartridge and safely drain into the drum. The top activated carbon filter cartridge indicates saturation and serves as a replacement reminder. Economical, non color-changing filter is also available. System includes a combination filter, safety goggles, and an anti-static ground wire with alligator clip. EPA compliant.

| Accessories | Model No |
| :---: | :---: |
| Counter Accessory for any Aerosolv ${ }^{\otimes}$ Unit | 28225 |
| Color Changing Combination Coalescing ${ }^{\dagger}$ Carbon Filter | 28224 |
| Color Changing Activated Cargon Cartridge (2pk) | 28223 |
| Combination Coalescing ${ }^{\dagger}$ Carbon Filter (non-color changing) | 28197 |
| Activated Carbon Cartridge (2pk) (non-color changing) | 28198 |
| ```Aerosolv}\mp@subsup{}{}{\circledR}\mathrm{ Maintenance Repair Kit (for use with any Aerosolv`) Includes: 1 non-sparking puncture pin with 0-rings 1 Aeroprene (polychloroprene) gasket 1 Spring 3 bridge pins 1 tube of grease``` | 28200 |
| Replacement Aeroprene (polychloroprene) gasket | 28111 |
| Replacement poly sleeve | 28181 |

$\dagger$ Coalescing filter can only be purchased in combination with a carbon filter.
Note: With the 28202 Aerosolv ${ }^{\circledR}$ unit you must leave the last aerosol can punctured and drained clamped in the unit to maintain a closed container as defined by OSHA.

Collect empty aerosol cans in open-head drums . . .
Popular Cease-Fire ${ }^{\circledR}$ open-head drums are made of durable steel and come in sizes up to 55-gallon (200-liter)-a great way to collect cans for recycling! Visit justritemfg.com for details.

## Aerosolv ${ }^{\circledR}$ Super System <br> Certified by the EPA's Environmental Technology Verification Program (ETV)

- Built-in counter tracks number of cans punctured.
- Protective coating for easy cleaning.

Aerosolv ${ }^{\circledR}$ Super System offers all the features of the original Aerosolv ${ }^{\circledR}$ system plus greater vapor reduction, easy tracking, and added security. Lockout and shut-off mechanism seals the system and drum when not in use to eliminate the escape of hazardous vapors to meet OSHA requirements. Easily comply with your ISO 14001 program using the built-in counter. Includes a combination coalescing/ saturation indicating carbon filter, a padlock with key, anti-static ground wire with C-clamp, and safety goggles.
EPA compliant and ETV certified.

## Aerosolv ${ }^{\circledR}$ Dual-Compliant System

Designed to comply with California's vapor emission regulation SB1158
Aerosolv ${ }^{\circledR}$ Dual-Compliant System includes all the great features of the Aerosolv ${ }^{\circledR}$ Super System plus a shut-off valve in the puncturing unit and a check valve in the carbon cartridge to prevent off-gassing. A poly lid cover and a poly containment sump help you stay compliant whether you are accumulating or transporting processed aerosol cans for scrap. Includes a combination coalescing/saturation indicating carbon filter, a padlock with key, antistatic ground wire with C-clamp, and safety goggles.
EPA compliant and ETV certified.

Note: See replacement filters above.

## Prosolv ${ }^{\circledR}$ System

## Safely and economically convert gas cylinders into recyclable steel containers

The Prosolv® System removes the sealing sleeve and internal valve stem from propane, MAPP, and 3 3-in ( $19-\mathrm{mm}$ ) male threaded calibration gas cylinders (do not use with oxygen bottles). It empties and filters propellants from cylinders converting them into non-hazardous recyclable material.
EPA compliant.

Built-in counter is a great tool for easy adherence to your ISO 14001 program.

SPIL GONWROL \& ENURONMENAL
Sorbents

Easily wipe grimy, small parts with handy sorbent pads.

Universal Sorbents
Absorb spills of water- or petroleum-based fluids and keep your workplace clean and safe from slip accidents
For everyday cleanup of drips, leaks and spills around workbenches, pipes, and machinery. Polypropylene fibers absorb up to 25 times their weight. Use for liquids such as hydraulic oil, antifreeze, gasoline, acetone, or other water-based fluids. Use pre-cut pads for wiping operations or small spills. Convenient perforated rolls are suitable for larger areas including workstations and walkways.

Bonded sorbents with dimpled surface for increased tensile strength quickly soak up liquids.

Fine Fiber low-lint sorbents provide gripping power for walkways and help control equipment leaks and oversprays. Suitable for wiping applications.

Laminated SMS sorbents provide virtually lint-free use with sensitive tools and in rugged wiping applications.

Drum Top Pad soaks up drips from collection or dispensing operations. Pre-cut bung holes fit 55-gallon (200-L) drums.

# SPILL GONWBOL \& ENVIRONMEN 

## Oil Only Sorbents

## Fast, effective cleanup of oil spills on land or water

Hydrophobic polypropylene fibers absorb and retain petroleum-based liquids without absorbing water, making them ideal for liquids like motor oil, transmission fluids, transformer oil, and drilling and cutting fluids. Sorbents float indefinitely and remain intact when fully saturated. White color helps identify saturation. Available in handy pre-cut pads or perforated rolls.

Meltblown sorbents offer the most economical liquid control.
Bonded sorbents feature ultrasonically bonded points, fusing fibers together for increased tensile strength.

Fine Fiber sorbents offer high absorption strength and gripping power, with two layers of polypropylene bonded around a high-loft meltblown core.

Laminated SMS resists abrasions and are low-lint to prevent contamination
to sensitive parts.

Use sorbent rolls to clean up workstation floors and reduce potential accidents.

|SPILL GONWROL \& =NURONWINWL
Sorbents

Sorbent socks mold easily around the ledge of machinery, absorbing leaking oils and overspray.

## Specialty Sorbents

## Various styles and contents for indoor and outdoor applications

Universal Socks \& Pillows contain a blend of polypropylene and cellulose recycled fibers to help fulfill environmental initiatives. Because they contain a blend of material, do not use with acids, bases or unknown liquids. Use socks around large spills to prevent spreading, or mold around machine bases. Pillows offer high volume spill cleanup in tight spaces.

Oil Only Socks, Pillows, and Booms are made of 100\% polypropylene. They absorb oil but repel water; ideal for use on waterborne spills. Wrap socks around leaky outdoor equipment. Pillows soak up oil in ponds, basins, and tanks. Non-toxic, non-shedding floating booms include rope and snap links for linking together for quick deployment in waterways.

Hazmat Pads, Rolls, Socks, and Pillows soak up acids and bases. Made of surfactant-treated polypropylene, they are ideal for unknown liquids; they won't react with aggressive chemicals and solvents. High visibility colors quickly identify hazardous conditions.

| Description | Nominal Dimensions W x D | Absorbency Capacity Gallons/Liters | No of Pieces and Pack | Ship Wt lb/kg | Model No |

## Spill Kits

UN certified containers filled with universal, oil only or hazmat sorbents provide quick response to any size spill
20-gallon (76-L) Spill Kits open with a twist of the lid for quick spill cleanup. Portable size allows for multiple placements at different workstations.
Contents:
25 - 15-in x 17-in (381-x 432-mm) pads
4 - 3 -in x 4 -ft ( 76 -mm x 1-m) socks
2 - 10-in x 10-in (254- x 254-mm) pillows
1 pair of safety goggles, 1 pair of disposable gloves, 1 shovel,
1 Emergency Response book, 1 disposal bag.
50-gallon (189-L) Wheeled Spill Kits Kits provide portability for average sized spills. Chemical, weather resistant polyethylene construction with large $40-\mathrm{in}(152-\mathrm{mm})$ wheels make them easy to move anywhere, indoors or out.
Contents:
$50-12-$ in x 13-in (305- x 330-mm) wipes
$50-15$-in x 17-in (381- x 432-mm) pads
5 - 3 -in x 4 -ft ( 76 -mm $\times 1$-m) socks
$5-3$-in $\times 10$-ft ( $76-\mathrm{mm} \times 3$-m) socks
4 - 10-in x 10-in (254- x 254-mm) pillows
1 Emergency Response book, 5 drum liners.
95-gallon (360-L) Spill Kits contain enough supplies to respond to larger scale accidents. Durable, 100\% polyethylene resists rust and corrosion, keeping contents dry and ready for use. High visibility color saves valuable response time for site cleanup.
Contents:
$100-15$-in x 17-in (381-x 432-mm) pads $10-10-\mathrm{in} \times 10-\mathrm{in}(254-\times 254-\mathrm{mm})$ pillows 4 - 5 -in $\times 10-\mathrm{ft}(127-\mathrm{mm} \times 3-\mathrm{m})$ booms
2 pairs of safety goggles, 2 pairs of disposable gloves,
1 shovel, 10 disposal bags.
