

# Tripod for Plastic Pipe jobs

**R450GB  
#02307**

- Ergonomic solution with aluminum legs for weight-critical field use.
- Folds easily and features padded handle for portability.
- Bowtie style, double-faced jaw gives twice the life of other jaws.
- Raised lip keeps tools on the bottom tray.

**Reed Manufacturing Company**  
Erie, PA USA [www.reedmfgco.com](http://www.reedmfgco.com)

- **R450GB** (#02307) with 4" nominal (114 mm actual OD) pipe capacity.
- Great option for use with plastic pipe, some mechanical and electrical jobs, and other light-duty pipe work.
- Chain vise style only.
- On average, R450GB is 40% lighter (about 20 lbs.) than tripods from RIDGID®, Jackson Tools®, and Wheeler-Rex®.
- Weighing under 28 lbs., (13 kg), the R450GB is 14 lbs. lighter than Reed's heavy-duty R470+ tripods.
- No ceiling jack and that helps keep the weight down.
- Optional and exclusive coated jaws (#99077) provide protection against damage to plastic and stainless steel pipe/tubing.
