

## Site Assessment Program

We can help! Guardian Equipment, the leading manufacturer of emergency eyewash and shower technology, can help ensure ANSI Z358.1 compliance within your facility. This no cost service is conducted by a Guardian Equipment factory professional. After all, your safety is too important to entrust to just anyone.

### Pre-Assessment Prep

Items to gather for the assessment:

- Squeegee, mop, towel and/or absorbent pads
- Wet floor signs
- Shower test kit
- Equipment to contain shower water if no floor drains are present
- Location of all emergency eyewash and shower on site
- Protection for sensitive equipment near emergency units
- Ladder to access thermostatic mixing valves in ceiling

### Did you know?

- *Eye injuries alone cost more than \$300 million per year in lost production, time, medical expenses and worker compensation.*
- *Each day about 2000 U.S. workers sustain job-related eye injuries that require medical treatment.*
- *OSHA penalties for violations can range from \$13,494 to \$134,937.*

### Post-assessment

- Guardian factory professional will construct a detailed report within two weeks
- Schedule a follow up call in person or virtually to review findings
- Present recommendations and solutions
- Schedule trainings when applicable

### OSHA Required

29CFR 191.151 "...where the eyes or body of any person may be exposed to injurious corrosive materials, suitable facilities for quick drenching or flushing of the eyes and body shall be provided within the work area for immediate emergency use."

### ANSI Regulated

ANSI Z358.1-2014

### During the Assessment

On the day of the assessment a Guardian professional will:

- Fully activate all emergency eyewash and shower units
- Record output water temperature from the eyewash and shower
- Inspect all accessible piping to emergency equipment
- Take pictures, if permissible, to document units and spaces
