

Ladder Safety Inspection Service

Safe ladders are essential to the smooth operation of any workplace.

Common Causes of Accidents

Accidents that occur due to a ladder have four common causes. Using worn and damaged ladders is one of those four primary causes, the other is selecting the wrong type of ladder for the job at hand. Dillon Supply's Sales Representatives can inspect and suggest ladders for any job.

Why Have Your Ladders Inspected?

20% of weekly worker accidents are fall injuries in relation to a ladder

The estimated annual cost of ladder injuries in the U.S. is \$24 billion, including work loss, medical, legal, liability, and pain and suffering expenses

If you contact your local Dillon Supply representative, the inspection is **free**.

TIME SAVER

Free up one of your workers and let Dillon do the work for you.

KNOWLEDGEABLE

Dillon's Sales Reps are trained by leaders in the industry.
