SAFETY SERVICES & TRAINING

Our Safety Specialists are QSSP (Qualified Safety Sales Professional) trained with over 100 years of combined experience to assist you in assessments, compliance, product selection, training and additional services. Identifying cost savings and reducing injuries is their primary focus.

SERVICES

HAND PROTECTION SERVICES

Provide suggestions to eliminate injuries, increase production, worker compliance and potential cost savings.

FALL PROTECTION ASSESSMENT

Services include fall protection hazard analysis, site surveys and product testing.

RESPIRATORY FIT TESTING

Ensures you have a proper fit and seal for a respirator.

NOISE SURVEYS

Our partner Industrial Hygienists provide a wide range of sound level measurement services and program development.

HAZARDOUS STORAGE SURVEYS

Addresses concerns with handling hazardous liquids — including storage, transfers, use, disposal and evaluation.

MATting SURVEYS/EVALUATION

Assess current environment to offer solutions for improved productivity/reduction of injuries/worker fatigue. Help meet your safety, productivity and budgetary goals with onsite assessments.

ARC FLASH ASSESSMENT

Perform assessments to provide a detailed report including your single line diagram and install proper labeling.

LOCKOUT/TAGOUT SERVICES

Services include: Examination of existing equipment and develop written procedures for each source of energy, annual audit as required by OSHA, and training of employees. Evaluation of current lock out devices to ensure proper equipment is on hand.

HEARING CONSERVATION

Can include mobile audiometric testing, web based data management, and audiometric technician training classes.

ERGONOMIC ASSESSMENTS

We offer ergonomic assessments and training to help reduce muscle disorders and repetitive strain injuries.
